

CES Quality Policy

In support to the delivery of highly capable, effective, and credible Police service, CES shall provide a reliable and secured communications infrastructure and services for the PNP.

To attain this, CES commits to:

- Ensure availability and operational readiness of communications systems;
- Conduct regular preventive maintenance of communications facilities and equipment;
- Conduct Communications Technology-related trainings to PNP personnel;
- Develop technically competent, capable and disciplined CES personnel; and
- Continually update the Communications System Strategic Plan in consonance to emerging technologies.

CES will continuously improve the Quality Management System compliant with all legal, organizational, customer and international standard requirements and all applicable laws.
